

BRIDGE TO CARRY 5TH AVE. OVER 42D STREET

Board of Estimate to Make
First Appropriation for
Project To-Day.

WILL COST \$265,000.

Crosstown Street to Be Low-
ered Also by Plan to End
Congestion.

Mayor McMillan's dream of a wider Fifth avenue, with the avenue carried over Forty-second street upon an ornamental bridge, will be in the way of realization, this morning when the Board of Estimate will adopt a plan authorizing this change at a cost of \$265,000.

Detailed plans for the change have been prepared by a committee consisting of Chief Engineer Nelson F. Lewis, of the Board of Estimate, Chief Engineer Chandler Withington, of the Comptroller's office, and the chief engineer of street openings of Borough President Ahearn's office.

The bridge for an undercrossing at Forty-second street, thirty-two feet wide, by which Crosstown traffic can pass under Fifth avenue, which will be carried across the street on a viaduct, the grade of the street will be lowered for the purpose. The plan will begin forty feet west of Madison avenue and will extend eastward to the intersection of the street with the Broadway street, to Fifth avenue, and to make room for the sidewalk is to be narrowed to sixteen feet at this point. The

der Fifth avenue the roadway is to be made thirty-six feet, so that trucks may turn out to let cars pass.

The city officials believe this will end the constant congestion of traffic at Forty-second street and Fifth avenue, long one of the most congested points in the city, owing to the heavy automobile and carriage travel on Fifth avenue and heavy cross-town traffic in Forty-second street.

The plan for widening Fifth avenue has been contemplated more than two years and the Forty-second street viaduct, or bridge, is part of it. It is estimated that the total cost of the widening of the avenue will be about \$500,000.

An initial appropriation of \$25,000 is to be made to-day for the Forty-second street change. The improvement is to be entirely in the hands of Borough President Ahearn. He will immediately advertise for bids for the work.

TO BE BUILT IN BROOKLYN.

Machinery for Battleship Florida Goes to That Yard.

WASHINGTON, Nov. 20.—A delegation of Brooklyn people—Representative Calder, Col. Michael Dady, Thomas Clark and George H. Genia—called on President Roosevelt yesterday to persuade him that the machinery for the battleship Florida should be built at the Brooklyn Navy Yard. They succeeded.

Mr. Newberry told them that all the work possible toward the construction of the Florida had been done in that yard.

Mr. Newberry at the same time told them that he had had completed the readjustment of the pay of 1100 navyward clerks throughout the country, in accordance with the Act of Congress of that subject and that each will receive an increase, the totals averaging \$20 a year.

FOR OLD PEOPLE

After reaching the age of forty the human system gradually declines in virility and strength and becomes less able each year to combat sickness. It is then that the accumulated poisons in the blood manifest themselves by rheumatic pains in the joints, muscles and back.

These warning signals should be promptly relieved and serious illness avoided by using the following prescription which shows wonderful results even after the first few doses and it will eventually restore full physical vigor.

One cubic centimeter of Sarsaparilla, one cubic centimeter of half pint of high grade whiskey, shake to mix and use in tablespoonful doses before each meal and at bedtime. The bottle is well shaken each time. Any druggist can supply the ingredients.
